

VetMind AI — One-Pager

AI assistance for veterinary practices · DACH · Pre-Seed

Problem

Vets spend 2–3 hours per day on documentation. Burnout rates exceed 50%. The staffing shortage is worsening.

Solution

VetMind AI listens during the consultation, transcribes in real time (DE/EN) and generates a structured SOAP note in under 45 seconds including differentials, Rx placeholders and follow-ups. Complemented by a weekly fatigue check-in for teams.

Market

~€1.2B vet software market in DACH, 12,000+ practices in Germany, 20% annual growth in practice-management tooling.

Business model

Per-seat SaaS: Starter €59/mo, Growth €129/mo, Enterprise custom. 14-day free trial. Target: solo practices and clinics with 2–6 vets.

Compliance

EU hosting (Frankfurt), GDPR compliant, consent flow before every recording, downloadable DPA, EU AI Act positioning.

Roadmap

V1: AI Scribe + Fatigue check. Post-funding: Communication Coach, PMS integrations (ezyVet, IDEXX), passive fatigue tracking, research portal.

Ask

Pre-seed round to fund pilot clinics, clinical prompt tuning and PMS integrations. Contact via vetmind.ai/investors.
